

di-Top

high barrier lidding film for pots and trays by Discovery Flexibles

di-Top has been developed as an extremely cost effective laminate suitable for sealing to a wide range of materials. It provides a clean peelable opening, optimising consumer confidence.

Excellent puncture resistance and good protection against moisture makes discoTop ideal for hydroscopic products such as snacks and dehydrated foods.

About Us...

Discovery Flexibles has been producing Gravure printed flexible packaging for over 55 years.

We have a long history of industry firsts and remain focused on innovation through application of our experience, technical knowledge and supplier relationships.

Specialising in the printing and converting of films, paper, aluminium foil and laminate structures, we form part of the largest independant Gravure packaging group in the UK.

Call us now to find out how we can help reduce your costs and improve your on shelf appeal.

What our Customers say..

'It can be difficult finding a supplier that can provide consistent quality. When product delivery dates become critical you look for a company that can offer a responsive service. These are just some of the reasons why I've recommended Discovery Flexibles as a packaging supplier and will continue to do so.' - A leading Pharmaceutical Company
